

Exmbe Solar Panel for Zone 1 Areas

Our SPA 130 Photo Voltaic Solar Panel is an Exmbe certified product for use in Category 2 or 3 (Zone 1 or 2) areas.

This new pioneering product, which is a world first, is proving to be popular as the need for renewable energy is very much in the forefront of industry. Typical applications for this new energy and cost saving concept is to be installed in locations where conventional power and labour requirements are difficult to obtain but are potentially hazardous due to the surrounding atmosphere.

Supplied along with our Solar Panels, we offer a wide range of Ex Solar Controller's & Battery Systems, providing a full and completely self contained power system.

Renewable energy is the future
