

## QUALITY POLICY

It is JCE Group (UK) Ltd's prime commitment to achieve continual improvement in our performance. This includes standard of quality, safety, environmental and reliability performance at all levels within the Company to ensure that our product and service meets or exceeds customer's requirements to their satisfaction, and meets the objectives of ATEX Directive 2014/34/EU and the IECEx Scheme, and other applicable statutory or regulatory requirements.

The QA Manual has been created to serve as a reference base for the Quality Policy and Objectives of JCE Group (UK) Ltd

The framework for setting Quality Objectives is the Management Review process, supporting the strategic direction of the organisation.

The Quality Assurance System, based on the requirements of Quality Standard BS EN ISO 9001:2015, and also ISO/IEC 80079-34, is designed to improve efficiency and reliability within our workplace so that our customers have confidence that we can deliver products and service fit for purpose, on time and compliant with stipulated codes and standards.

The Quality Representative is responsible for the day-to-day running of the Quality System.

The Company shall provide adequate resources and well-maintained equipment to ensure the Company's Objectives can be achieved and applicable requirements satisfied.

The Company shall ensure that all employees are adequately trained and are directed towards compliance with the QA Manual and procedures as appropriate to their work activities.

It shall be the responsibility of the Managing Director to ensure that this Policy is communicated, understood and applied at all levels within the Company.

This policy will be regularly reviewed for continued suitability and effectiveness, and made available to relevant interested parties, as appropriate, when requested.
